This newsletter is dedicated to telling THE TRUTH as seen thru the eyes of Biorhythm Character Analysis and Compatibility.

HOSTAGES RELEASED

The hostages were released from Iran on 1-20-81. Why weren't they released on the 19th as expected?

The 6 days before Jan.20 were the ego, self-centered kind. It moved from that into the humanitarian vibrations on the 20th. Jan.19th was childish (#15 emotional) and did not want to be wrong (9% mental). #14 emotional is the beginning of the humanitarian phase.

	PHY.	EMO.	MENTAL
1-19-81	21(83%)	15(7%)	18(9%)
1-20-81	20(74%)	14(0%)	17(3%)

The week before the release of the hostages was good for seeing details (low mental percentages). They were looking over the money situation. As the days got closer to the 20th they could see the details clearer & clearer. On the 20th they were able to see the details so clearly they would not have been able to see the overall picture (3% mental).

The humanitarian phase made them forget their selfishness.

Is anything ever by chance?

Just as the new President (Ronald Reagan) delivered his inaugural address the hostages plane left Iran.

The #14 emotional is on the borderline & is partly natural child & partly humanitarian. The child in this day made them play this game of holding up the release of the hostages. Humanitarian types have a bit of a sadistic sense of humor & that also showed up in delaying the hostages release until the presidents exchanged office.

The beginning of Feb. & for 2 weeks after people will be able to see the overall picture and can find loopholes if they want.

PARENTS WITHOUT PARTNERS

If you are a single, divorced or widowed parent look up your local PWP Chapter in the phone book. No need to be alone. You'll have instant friends.

In the old days the largest package had the BEST PRICE. That is not always the way it is now so check before buying.

sure no Americans are ever held hostage again will be #1 priority. That seems to be something that would be impossible as long as Americans go to foreign countries. That is a very emotional reaction. Reagan has a 93% emotional. He is a natural parent & would not like to see families separated.

There are an equal amount of women & men who are naturally emotional & an equal amount who are not. Have you noticed that nature likes to keep balanced? Humans tend to feel they know better than nature.

TEACHING BIORHYTHM CHARACTER ANALYSIS

I will be teaching a class on Biorhythm Character Analysis starting Apr. 2, 1981 from 1 to 2:30 p.m. on 8 Thursdays. Anyone interested can contact Workshop, 17042 Devonshire St Suite 215, Northridge CA 91325. Phone: (213) 363-1112. The cost will be $38. Register early to be sure of getting in.

If you can't make it to the school you can learn at home for $25. Send $25 to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

TILL DEATH US DO PART

I just finished reading "Till Death Us Do Part" by Vincent Bugliosi with Ken Hurwitz.

Having birthdates of people involved in a murder case would tell a lot about what really went on. 2 birthdates were given.

Husband Alan Palliko 4-1-37

Physical	12 (4%)
Emotional	26 (86%)
mental	12 (27%)

was tried for the murder of his wife Judy 11-16-45.

Physical	12 (4%)
Emotional	11 (21%)
Mental	29 (76%)

When men have such a low physical like Alan (4%), they do all kinds of things to prove they are real men. Alan was not sexy. He did macho things to cover up, including murder. A low physical percentage also means a lack of confidence.

4% PHYSICAL: He wore hats like a New Yorker. He wanted people to think he belonged to the syndicate. He liked guns. He was cocky and swaggering. He appeared to have an overfed sense of self importance. He put on that show because he really felt inferior. Sex was one of the last things on Alans mind. He was prudish. His sex life got to be 0. He was more concerned about having a woman at his side than in his bed. He kept busy working to avoid sex. Anytime you see a man making a big show of being real sexy you can be pretty sure he is not. Some thought he was a homosexual. He flirted. He loved snazzy apartments & cars. All for show. He would have been happiest living a simple life. He was happiest when riding horses. Low physical people usually love the outdoors.

#26 (86% EMOTIONAL): Normally Alan would have been a loving caring person. Like a lot of men who have been stifled & taught it is not manly to be emotional, he had to take it out on others. He became a wife beater. He beat up his ex-wife Katherine. He was basically a loner. Alan has considerable magnetism. He attracted both men & women. He wanted to please and to especially please his father. He loved to laugh. He loved parties.

27% MENTAL: He resent discipline. This percentage shows he was attracted to self-destructive things & to police at some time of his life. He had been a policeman who had been dismissed from the force. He majored in psychology. He talked too much. He would have been a know-it-all. He thought most people were stupid.

The combination of the high emotional (86%) and his low mental (27%) made him naturally paranoid. He charmed people & then drove them away with his suspicions. Letters to his psychiatrist "were such a chronicle of persecution complex." When he worked 2 jobs he took seconal to get to sleep & uppers to keep awake. He always tested people.

Alan should have been naturally shy. He felt inferior & he knew he was not sexy. He felt forced by society to pretend he was something he was not. He had his loving emotions stifled. He had to get his emotions out some way. Having been so frustrated he tried to get them out on the police force. When that didn't work he took to killing for money. He really did not need the money. It would not have brought him happiness. It was all to show people he was a real man.

Judy did not like Alan when she first met him. She called him a "smart-aleck". Then the physical attraction set in. Judy & Alan were 100% physically compatible. This means they would have been physically attracted even tho both were not sexy people (4%).

Alan asked 4 women to marry him within less than 6 months time. Finally Judy Davis married him on 3-1-68 & was brutally murdered 4-20-68 a month & a half later. Alan had gotten $25,000 insurance on Judy before he married her. 2 weeks before she was murdered Judy was planning to go home to her mother.

Judy married Alan on purely a physical attraction. They were only 7% emotionally compatible. There was no love here. It would have been easy for Alan to kill her or have her

killed because he did not love her. They were only 3% mentally compatible. They did not think alike. They would not have been able to really hear what the other was saying.

Alan Palliko married Judy Davis a woman he had nothing in common with except a physical attraction & he was not at all sexy so it meant there was nothing in this relationship for him. He had killed before & it seems obvious he married her only for the insurance money but he did it really to prove he was a real man. Is there anything more manly than killing?

After Alan was convicted of the murder of Judy he spoke to the news media and said his life without Judy was not worth living. Alan is a natural martyr (27% mental). He put on a show for them. He did not have any love for Judy. He said he wanted to receive the death penality. The death penality was communited to life imprisonment when the laws were changed. Alan said "I'm innocent...I don't have a latent desire to die..." That is a lie. Natural martyrs do have that desire. If he had a lot of confidence he might have killed himself instead of others. He said "Judy & I grooved together." That too was a lie. They were not compatible.

The pressures society puts on people to be what they are not was responsible for the death of Judy Davis Palliko. Alan tried to go against his true nature & cracked under the strain.

The book is very interesting. There is much more to the story. It is fast reading.

After reading this true story do you have the courage to have a compatibility done with your spouse or someone you are thinking of marrying? Send $12 & 2 birthdates (month, day & year) to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

THE CHICKENIZATION OF WOMEN

by Anne Jeanne D'Arcy.
"Young women are chicks. Married women cluck at hen parties. They egg men on. Mothers watch their broods. Child rearing ends with the empty-nest syndrome. Husbands at home are henpecked by their wives. At 60 a woman is an old Biddy. Is it just a coincidence that so many women's wages are chicken feed?"

BROKEN MARRIAGE

Linda Lavin & her husband Ron Leibman have broken up.

Linda played the part of a nurse in a TV movie "A matter of Life & Death." This movie made her feel life was passing her by. The mid-life crisis had hit her.

Linda has been working long hours in "Alice." Her husband has not been working that much. This creates a problem in any marriage.

	Linda 10-15-37	Ron 10-11-37
Physical	22 (91%)	3 (74%)
Emotional	25 (79%)	1 (93%)
Mental	13 (21%)	17 (3%)

Linda & Ron are 65% physically, 71% emotionally & 76% mentally compatible. They are 71% alike. This is a much better than average compatibility.

The marriage has been stormy the last few years mainly because Linda has been working such long hours. Does the public need a weekly show at the expense of the marriages of those who are working on them?

Ron should not give up on her. This panic will run its course. He needs to be there when she needs him again. He is a natural father (#1 emotional) & he does not want to be wrong (3% mental) so he is likely to try very hard to keep his marriage. Even if they do divorce he should still stick around until she calms down again. He needs to make it easy for her to come back.

ATTORNEY GENERAL DESIGNATE

William French Smith 8-26-17

Physical	17 (48%)
Emotional	16 (14%)
Mental	9 (46%)

belongs to 2 clubs that discriminate against women and minorities.

The Attorney General is the highest law enforcement official in the nation. He is responsible for enforcing federal laws. If the Attorney General shows contempt for the rights & the welfare of all he will not be effective in his job. He does not want to resign from these clubs.

Smith lacks confidence (48% physical). By belonging to all male clubs he is telling everyone that he is a man, after all, women can't belong. Smith cares only for himself & his wants. He is a natural child (#16 emotional). He went into politics for the attenion he can get not for what he can do for others.

Smith is a natural martyr

(46% mental) who is attracted to trouble. He is naturally prejudiced so would be attracted to clubs like that.

Smith will also be attracted to people who will dominate him. He is not a leader. He would be likely to knuckle under to those who are stronger than himself.

UNUSUAL GIFTS

Biorhythm Character Analysis and Compatibility make unusual gifts for any occasion.

CANCER VACCINE

China has vaccinated 200 million infants against cancer. The vaccine comes from the University of Chicago.

The politics of cancer does not permit us to use it in this country. 250,000 Americans, a year, do not need to die.

JOHN, SEAN & YOKO

John Lennon believed his spirit would return in his son Seans body after his death. Because of this belief. John took complete charge of his sons life. He tried to prepare his son for this event.

John 10-9-40		Sean 10-9-75	
Physical	13 (13%)	18	(57%)
Emotional	27 (93%)	12	(14%)
Mental	12 (27%)	0	(100%)

Johns death must have been a great relief coupled with guilt for Sean. They were only 7% emotionally & 27% mentally compatible. They did not have much in common.

John was a martyr type (27% mental) who was attracted to trouble. If he had lived until Sean became a teenager there would have been a lot of rebellion on Seans part.

Sean has to be in control (100% mental). John was attracted to those who would control him & cause him problems. John was a poor judge of people.

Yoko Ono 2-18-33

Physical	20	(74%)
Emotional	17	(21%)
Mental	30	(82%)

is one who needs to dominate (82% mental).

Now that John is gone, life should be better for Sean because he is 83% physically, 64% emotionally & 82% mentally compatible with Yoko. They are 76% alike. John & Sean were only 30% alike.

Yoko was not very compatible with John. That could be one of the reasons they had so many people around them all the time. If they had lived alone they might have divorced a long time ago. John & Yoko were 39% physically, 29% emotionally & 9% mentally compatible. They were only 26% alike. If they had been more compatible John might not have been so resigned to dying. He dreamed of being killed by a fan.

John said he had been taking drugs since he was 17 years old. His 27% mental made him attracted to self-destructive things & relationships. He would have had depressions too.

Yoko has a very strong attraction to show business. She might try to force her son into the business because that is what she wants for herself.

It would not be a natural element for Sean.

OUR GODS?

We tend to imagine the ancients sat around & painted or carved only Gods. A few thousand years from now someone finding our pop art is likely to say that was our Gods.

If we did not have insurance the doctors & hospitals would not be able to charge so much. If we did not have auto insurance the auto industry would not be able to charge us so much to get our cars fixed.
